ECO FRIENDLY PRODUCTION

Having a responsible eco-design is no longer an option nowadays, LOEVA does everything possible to improve the impact on the planet and the ocean of its production.

BIO PRODUCTION IN DETAILS

Marine Aluminium infinitely recyclable

**Biosourced Pad
(in progress)**

Structure in Biosourced Carbon

Transparent material infinitely recyclable

VEGAN LEASH & LUGGAGE

The first leash in the world of sliding to be made of Apple skin leather.

We also use Pinneapple skin leather for our protection cover.

ECO IN OUR MIND

At LOEVA :

- Intern materials recycle program
- Recycling procedure for products sold
- Coral restauration program

- Green Electricity
- 0 PAPERS procedure
- Electric vehicules and bicycles
- Bio Based Glues
- White vinegar to clean
- Solar panels to produce our own electricity
- ideas to go always further in the eco behavior
