transparent board.*

A scenic mountain landscape with a lake and a central graphic element. The image shows a valley with steep, rocky mountainsides covered in dense evergreen forests. In the center, a large, vertically oriented, teardrop-shaped graphic element is superimposed, containing a reflection of the surrounding landscape. The overall color palette is dominated by deep blues, greens, and earthy browns, with a soft, hazy atmosphere. The text 'A MYTH COME TRUE' is centered horizontally across the middle of the image.

# A MYTH COME TRUE

It is in Biarritz, the little French California of surfing, that two avant-gardists in love with sliding and the ocean took up the challenge.

## LE STANDUP BY LOEVA

## AN EXCEPTIONAL MATERIAL

---

Le StandUp erases the reflections of water and opens a window on the ocean. A perfect transparency and an unmatched clarity made possible by a nano-structured, innovative and patented material.

This material of a new kind is unalterable and offers a high level of impact resistance.

## A BIOMIMETIC FIN

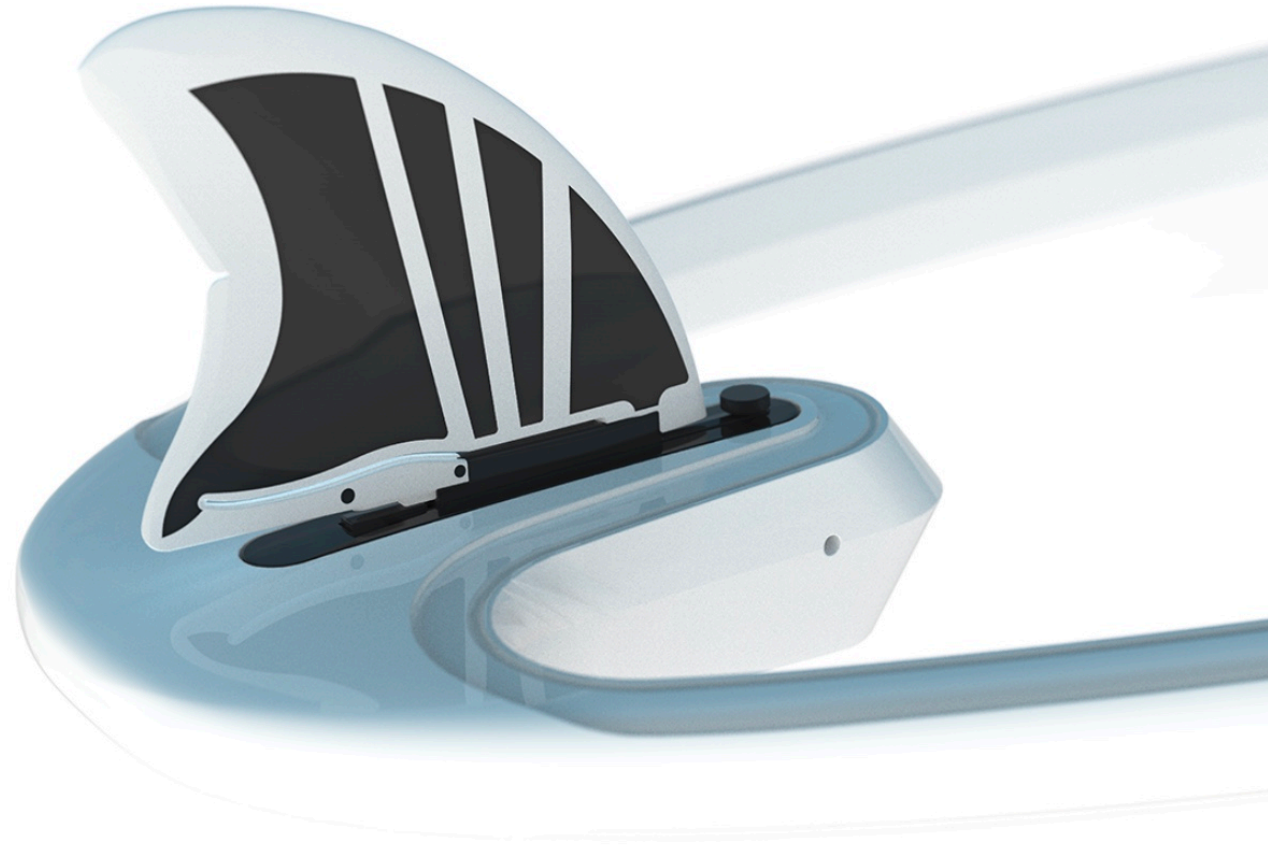

---

The LOEVA fin takes its inspiration in dolphins fins.

At every paddle stroke, the fin is twisted and then naturally returns to its original position, providing the force in a propulsion effect like a real fin stroke.

Designed without resins or solvents, the DYNAMIC™ technology offers the best performance.

2x more propulsion power, 1.5x more speed, 2N buoyant force.
